Maintenance Schedule

Find or add a vehicle ^

Regularly maintained vehicles are more reliable, more durable, and have higher resale value. Keep your Ford healthy by following the maintenance schedule below.

YOUR VEHICLE DETAILS

Update details +

Current Estimated Mileage: 0 Average Mileage: 0 Driving Conditions: Normal Condition

NEXT SERVICE DUE AT: 10000 MILES

or sooner if indicated by your vehicle's message center

Your vehicle is equipped with the Intelligent Oil Life Monitor - a system that calculates optimal oil change intervals.

Run Your Vehicle Health Report

Check vehicle message center for

"CHANGE ENGINE OIL SOON" at 5% oil life
"OIL CHANGE REQUIRED" at 0% oil life

Your Maintenance Schedule at:

Here's what happens at your 150000 mile checkup

- Replace engine air filter
- Change orange coolant
- Change automatic transmission fluid
- Replace accessory drive belts (if not replaced within last 100,000 miles)
- Replace climate controlled seat filters, if equipped
- Rotate and inspect tires; check wheel end play and turning noise
- Change engine oil and replace oil filter when indicated on vehicle message center or every 12 months, whichever occurs first
- MEMO: Gas engine; Up to 6.0 quarts of oil (IOLM)
- Inspect cooling system and hoses
- Inspect cabin air filter
- Inspect complete exhaust system and heat shields
- Inspect brake pads/shoes/rotors/drums, brake lines and hoses, and parking brake system
- Inspect and lubricate all non-sealed steering linkage, ball joints, suspension joints, half and drive-shafts and u-joints
- Perform multi-point inspection
